

Information required to determine RSC package needed.

The following information is needed to determine which RSC package will fit your machine and meet your needs.

Please supply all of the information and answer all the questions as requested.

CUSTOMER NAME:

_____, _____
PLANT LOCATION

INFORMATION SUPPLIED BY:

DATE

1. Does your machine have a scoring section? YES NO (circle one)

If the answer is “**NO**”, **stop** here. This inquiry is typically at an end. Unless this is an unusual situation where the customer will score the board on another piece of equipment and then run it through the die cutter there is no need to continue. **Our RSC equipment does not have a scoring provision.**

If the answer is “**YES**”, **continue** on.

2. Machine used on: _____

3. Specifications needed to determine package application:

Die cylinder:

a. Diameter: _____

b. Length: _____

Cylinder Hole pattern:

c. Horizontal hole spacing: _____

d. Hole at center of cylinder: YES NO (circle one)

e. Space at center of cylinder: YES NO (circle one)

f. Threaded hole size: _____ (Alt: Die bolt size, length not required.)

4. Customer preferences: (Options)

a. Slot cut length: 6”, 8”, 10”, 12”, 15” (circle selection)

b. Scale graduations: ENGLISH METRIC (circle one)
